UNDERSTANDING YOUR HOME WARRANTY

ABOUT HOME WARRANTIES

Home warranties are provided to help greatly reduce or eliminate the major costs of repair or replacement of your home's major systems. We cover what is on the inside of your home such as A/C, Heating, Plumbing, Electrical, Built in Kitchen Appliances, Refrigerators, Freezers, Washer/Dryers & Garage Door Systems. Additional coverages can be added with an Acclaimed Home Warranty Plan such as: Pool, Well, Septic etc. *refer to price list for options*

When purchasing with Acclaimed you are not just a number, you are part of our family! We respond quickly when you call and most claims are completed within 72 hours – emergencies 24 hours. It's easy to make claims by calling us at 888-494-4960 or going online to our website acclaimedhw.com 24/7/365.

Check out all the other helpful tips below.

READ THE CONTRACT

Not reading the contract details is a common mistake made by many. Make sure you read the inclusions and exclusions of each system so you know in advance if something is covered or not; this way you won't be disappointed if a claim is denied. We will do our best to assure that you are well taken care of, even if we are unable to cover the claim.

WHAT IS CONSIDERED PRE-EXISTING

Acclaimed Home Warranty covers unknown pre-existing conditions. If the pre-existing condition or defect would not have been detectable through a visual inspection or simple mechanical test, for example, a simple mechanical test would be turning on an item and making sure it is operating correctly without causing damage, irregular sounds, or other abnormalities.

IT IS NOT HOMEOWNER INSURANCE

Home Warranties are often confused for homeowner's insurance. While homeowner's insurance covers personal belongings and the overall structure of a home, home warranties cover major systems and appliances including plumbing, electrical, HVAC, refrigerators, stoves, garbage disposals and more. Warranties do not cover the repair or replacement of damaged floors, walls, or the general foundation of the house. At Acclaimed, we will cover a portion of wall repair if drywall needs to be removed to access repair point.

KEEP APPLIANCES AND SYSTEMS UP TO CODE

Home warranty companies require that you keep your appliances and systems up to code, or the warranty on that system may become voided. Another important aspect of home warranty coverage is to know that you must properly maintain your systems. If you fail to do so, it may result in the denial of a claim if it breaks down. Acclaimed offers biannual HVAC tune-ups with a required service fee. This is also a great way to have your furnace and/or A/C units inspected and in some cases green stickered (great option for Seller's coverage).

UNDERSTAND SERVICE FEES

A service fee is always a requirement of any claim. Make sure you know what the cost of the service fee is for the company you are choosing. Here at Acclaimed we are only \$60, best thing is we only charge per trade – so this means if you have two appliance claims at the same time only one fee is required.

USING HOME WARRANTY CONTRACTORS

It is important to understand that most home warranty companies use their own approved contractors. You must call to discuss the claim so one can be assigned. We find it vital that all contractors go through our application and approval process and they are licensed and bonded so we give you the best service possible. Approval to use someone outside our contractor list will need approval first so please call.
